

## **JackTrip Foundation Equipment Grant Program Round 1 Applications Due September 1, 2021**

The JackTrip Foundation mission is to drive continued innovation of network arts technologies and widespread adoption through a wide array of technology, cultural, educational, and community services. Founded in 2020, the JackTrip Foundation is now launching a Quick Grant to start its grant-making programs and to catalyze the field.

The JackTrip Foundation Equipment Grant supports nonprofit arts, education, and technology organizations, as well as individuals applying through organizations. The funds are for purchase of equipment for network arts projects to further innovation and access in this cultural work.

The grant program awards \$250 USD to purchase equipment such as network arts platform hardware and software, microphones, headphones, lights, cameras, mixers, and interfaces. Network arts is defined as live performance via the internet by artists in different geographic locations. The equipment can be utilized for creation, performance, education, research, documentation, or distribution projects in hybrid or virtual formats.

### **Eligibility:**

U.S. based 501(c)(3) not-for-profit organizations with primary focus on arts, education, and technology fields. Individuals may apply through 501(c)(3) organizations or with a fiscal sponsor. Grantees are eligible for one Equipment Grant per year. Grants are decided on a merit basis evaluated by the Board. JackTrip Foundation promotes diversity, access, equity, and inclusion.
